## **STATE WATER CONTROL BOARD ENFORCEMENT ACTION – AMENDMENT TO ORDER BY CONSENT ISSUED TO THE TOWN OF CLIFTON FORGE VPDES Permit No. VA0022772**

### **SECTION A: Purpose**

This is an Amendment of a Consent Order (Amendment) issued under the authority of Va. Code § 62.1-44.15, between the State Water Control Board and the Town of Clifton Forge (the Town), regarding the Town's wastewater collection system, for the purpose of revising certain provisions of the Consent Order (Order) issued by the Board to the Town on June 5, 2006.

### **SECTION B: Basis for Amendment**

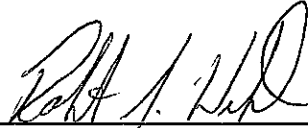

1. The Town owns and operates the Clifton Forge Sewage Treatment Plant (Plant) located at 100 Mountain View Cemetery Road in Clifton Forge, Virginia. The Town also owns and operates the associated wastewater collection and conveyance system. The Plant treats and discharges treated sewage and other municipal wastes for the residents and businesses of Clifton Forge. The Permit allows the Town to discharge treated sewage and other municipal wastes from the Plant, to the Jackson River, in strict compliance with the terms and conditions of the Permit.
2. The State Water Control Board issued the Order to the Town on June 5, 2006 for multiple wastewater overflows from the collection system. Among other requirements, the Order required the Town to submit and comply with a Corrective Action Plan (CAP) for eliminating overflows caused by excessive infiltration and inflow not later than December 31, 2010.

3. The Town has requested an extension of the December 31<sup>st</sup> deadline of the Order for completing the CAP. The basis for the extension request is the need by the Town to develop further data to characterize flows in the collection system in order to document compliance with the requirement to eliminate excessive infiltration and inflow.
4. The Town is otherwise in compliance with the Order and is current with all monitoring and reporting requirements.

**SECTION D: Agreement and Order**

Accordingly, by virtue of the authority granted it in Va. Code § 62.1-44.15, the Board orders the Town, and the Town agrees to perform the actions described in Appendix A of this Amendment, which supersedes and cancels only paragraph 5 of Appendix A of the Order. Both the Board and the Town understand and agree that this Amendment does not alter, modify or amend any other provision of the Order and that the unmodified provisions of the Order remain in effect by their own terms.

And it is so ORDERED this 14<sup>th</sup> day of December, 2010.

Robert J. Weld, Regional Director  
Department of Environmental Quality

----- (Remainder of Page Intentionally Blank) -----

The Town of Clifton Forge voluntarily agrees to the issuance of this Order.

Date: 10-13-2010 By: Douglas Buchanan Town Manager  
(name) (title)  
Town of Clifton Forge

Commonwealth of Virginia

City/County of Alleghany

The foregoing document was signed and acknowledged before me this 13<sup>th</sup> day of  
October, 2010, by Douglas Buchanan who is Town Manager of the  
Town of Clifton Forge, on behalf of the Town.

Mary Ann McElwee  
Notary Public

## **APPENDIX A SCHEDULE OF COMPLIANCE**

The Town shall:

1. Not later than December 31, 2013, eliminate overflows caused by excessive infiltration and inflow, as that term is defined by EPA's Handbook entitled *Sewer System Infrastructure Analysis and Rehabilitation*, dated October 1991, and codified at 40 CFR § 35.2005(b)(16).
2. Not later than August 1, 2011, submit a comprehensive report of water consumption, system flow, groundwater, and rainfall data for the Town from July 1, 2010 to June 30, 2011.
3. Not later than December 30, 2011, submit a comprehensive report of the results of the collection system tributary inspections performed during the period from July 1, 2010 to November 30, 2011 and, for review and approval, a revised Compliance Verification Plan (CVP) based on all data collected as of November 30, 2011.
4. Not later than June 30, 2012, submit to DEQ for review and approval corrective action cost estimates, a report of cost-effectiveness comparisons, a schedule of corrective actions, and a project funding plan for additional cost-effective infiltration and inflow work identified as a result of evaluation of the data and inspections referenced in Paragraphs 2 and 3 above.
5. Not later than December 31, 2013, demonstrate that it has eliminated overflows caused by excessive infiltration and inflow, as that term is defined by EPA's Handbook entitled *Sewer System Infrastructure Analysis and Rehabilitation*, dated October 1991, and codified at 40 CFR § 35.2005(b)(16), by submitting for review and approval a comprehensive report documenting that result, based on water consumption, system flow, groundwater, and rainfall data for the Town from July 1, 2010 to November 30, 2013.
6. Unless otherwise specified in this Order, submit all requirements of Appendix A of this Amendment to:
